

Columbus Public Library's (CPL) mission is to connect people with ideas. The CPL Makerspace is designed to inspire personal growth through experimentation, creativity, and the application of knowledge. The tools that are available in the CPL Makerspace are provided in the spirit of community, sharing, and collaboration. These state-of-the-art resources and technologies exist to support educational, professional and personal goals and endeavors.

BE A MAKER

OPEN HOURS

The Makerspace is open several times a week. Check our online calendar and Facebook for Makerspace Open Hours each month.

Ask us how to become eligible to reserve Makerspace tools and equipment when it works for your schedule.

COLUMBUS PUBLIC LIBRARY MAKERSPACE

MAKERSPACE TOOLS

In addition to our 3D printer and laser (returning in 2023) be a maker with one of these tools:

- Graphtec 24" Vinyl Cutter
- Bernina 560 with Embroidery Attachment
- Elgato Video Capture
- VHS/DVD Player/Recorder
- HP DesignJet T520
- Kodak Scanza
- Green Screen
- Corel Draw
- Cricut Maker
- Heat Press
- Drawing Tablets

CREATIVITY

3D PRINTING

CPL has one 3-D printer and a variety of filament for you to bring your ideas into reality. Use free resources and slicing software right here in the library. Have your own designs? Ask us how to print those in the makerspace.

CRICUT MAKER

The library's Cricut Maker can cut and deboss unique items to gift or to keep. Ask us about approved materials and start crafting!

MAKERSPACE 101 CERTIFICATION

Visit Niche Academy in our Digital Library (www.cplconnect.us) to complete Makerspace 101 Certification for our most requested equipment.

BOOK A LIBRARIAN

Need help getting started in the Makerspace? Complete the certification and then book a 30-60 minute session with us to start making!
